Requirements Part One

Product Features:

The Baker's Dozen Card Game was developed for a wide variety of users, and we have done everything we are capable of to make sure that this remains the truth throughout the course of the software's life cycle. The game is also developed in Java, which was specifically chosen for the software to be used on the widest variety of computers available on the market today. And lastly, throughout the development of this software, we are being completely transparent with our users and making sure we provide frequent and efficient updates to our software to please the most customers as possible.

System:

- FEAT 01: This game was designed to be downloaded on a computer with a compatible Java system version, or run on a Java web applet.
- FEAT 02: This system will allow a user to register their name upon submitting a score at the end of the game, thus saving their scores for future playthroughs.
- FEAT 03: This system will allow multiple users on one software license, however a separate license must be purchased if a user wishes to play on another computer.
- FEAT 04: This system will allow users to take full control of the game using a computer mouse, however a keyboard will be needed to submit a high score name.
- FEAT 05: This system will enforce all original rules of the Baker's Dozen card game.
- FEAT 06: This system will track points after each card placed, and keep track of time throughout the user's playthrough. A final score will be determined based on a percentage of time remaining and the number of turns taken (the lower the better).
- FEAT 07: The game will also have the ability to repeat another playthrough upon completion of the playthrough prior.
- FEAT 08: The game will also be in color, which is especially useful for differentiating between cards.
- FEAT 09: The system will close upon the user's request.
- FEAT 10: And lastly, the system will also be in a package along with all other directories required to operate the game. No extra files will be required to operate the game.
